## Pensioni in Italia – Come creare fiducia

La conferenza sarà tenuta in italiano

*Our inaugural Italian pensions conference will explore what drives the problems of a low take-up rate and will compare the Italian pensions market with other EU countries. Pension funds, trade unions, the regulator, the legislator and leading academics will reveal their views on how to create a more competitive, efficient and transparent market and will also look at how employers can instruct and win the trust of their employees. Overall, this conference will show how the country, economy, Italian based companies and employees can benefit from a strong pensions system.*

### BENEFITS OF ATTENDING:

- Learn about the Italian pensions system and about the Italian economy
- Understand the Italian pensions system and the position of Italy in Europe
- Follow and join in the debate on the current situation and its challenges
- Network with policy makers, pension funds, business leaders, opinion formers and supervisors
